

TABLETOP ROUTER BASICS

Instructor: Gary Rippentrop

Prerequisite: None

Schedule: 2 hours

Enrollment: Limit 2 students

Description: This class is a basic class as an introduction to table router use. It will instruct on the proper safety use, operating parts, installing, and removing the bits, setting depth of cut and speed. Instruction will be given for simple projects such as moldings, rabbets, jointer set up and more.

Class is approximately 1 1/2 hours to 2 hours in length.

Wood to be furnished by student. The wood needed is listed here. Poplar or other soft wood available from the lumber room will work. Wood pieces should be flattened and squared prior to class.

1 piece – ½" to ¾" x 5" wide x 12" long

3 pieces – ¾" x 4" wide x 24" long

Fee: \$10
